- Findings: The combination MD5 hash function and DES algorithm provide security to document and preserve its integrity

Academic Seminar

- Topic: **A Model for Reducing Power Consumption in Peer to Peer Systems.**
- Description: The total power consumption of server is calculated on the basis of round robin algorithm, but it consumes very large quantity of power as reported in the literature. In the present study the total power consumption is reduced on the basis of laxity concept. Power consumption laxity algorithm is widely used to reduce the power consumption in peer-to-peer systems.

Academic Achievements

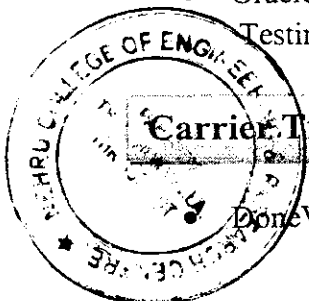

1. Published a paper on International Journal of Emerging Trends in Science and Technology.
2. Presented the M-Tech project paper on two national conferences.
3. Presented a project on 'Cryptographic Security' in National level Tech Fest "N-Site" held in Nehru college of Engineering and Research centre in the year 2011.

National Seminar

1. Presented a paper on "A Model for Reducing Power Consumption in Peer to Peer Systems" in National Conference held in Palakkad Institute of Science and Technology in the year 2012
2. Presented a paper on "Carotid Artery Identification in Ultrasound Images" in National Conference held at M. Kumaraswamy college of Engineering, Karur in the year 2015
3. Presented a paper on "Carotid Artery Recognition based on CA Recognition Algorithm" in National Conference held at SreeNarayana College of Engineering and Technology, Payyanur in the year 2015

TO WHOM IT MAY CONCERN

We are pleased to write this letter to inform you that the applicant named VINEETHA.K.R has been working for us, [MALABAR INSTITUTE OF MANAGEMENT AND TECHNOLOGY KL 12| 183] in her capacity as Lecturer since june 2014.

During her tenure in the office with our Organization, she participated in performing the work with determination and sincerity. As we observed, she was an active and very qualified person and she could perform all of assigned tasks effectively. Besides, in my opinion, she was a motivated, devoted, professional, hard-working, and innovative person. She contributed much to our organizational goals and targets and his performance was proven to be among the most effective in our organization.

Moreover, Ms .VINEETHA.K.R demonstrated excellent behavior and attitude during her service with us. We found her be sincere, truthful, reliable sociable. she was also a pleasant person to talk and work within a team.

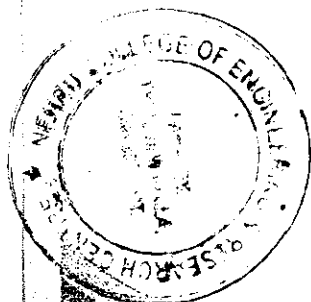

Her decision to leave our organization is her sole decision, however, we still hope she will succeed in any path of career.

TO WHOM IT MAY CONCERN

We are pleased to write this letter to inform you that the applicant named VINEETHA.K.R has been working for us, [MALABAR INSTITUTE OF MANAGEMENT AND TECHNOLOGY KL 121 183] in her capacity as Lecturer since June 2011.

During her tenure in the office with our Organization, she participated in performing the work with determination and sincerity. As we observed, she was an active and very qualified person and she could perform all of assigned tasks effectively. Besides, in my opinion, she was a motivated, devoted, professional, hard-working, and innovative person. She contributed much to our organizational goals and targets and his performance was proven to be among the most effective in our organization.

Moreover, Ms .VINEETHA.K.R demonstrated excellent behavior and attitude during her service with us. We found her be sincere, truthful, reliable sociable. she was also a pleasant person to talk and work within a team.

Her decision to leave our organization is her sole decision, however, we still hope she will succeed in any path of career.

Yours faithfully,

A broadcast heard by one client requires no more server power than a broadcast heard by hundreds. A sensor network using data push and data pull must consider the data communication issues associated with a traditional sensor network. These issues include broadcast size and organization, selection of items for broadcast, and network bandwidth. It must also consider the power consumption and mobility of the server(s) as well as clients.
