Read:- 1) Minutes of the meeting of Board of Studies in Engineering (P.G) held on 10.12.2009 and

28.01.2010.

- 2) Minutes of the meeting of Academic Council held on 03.07.2010. item. II A.
- 3) Minutes of the Syndicate held on 17.07.2010, item 2010. 483.
- 4) Order of Vice Chancellor dt. 31.07.2010 in the file of even No.

ORDER

As per paper read 1st, the BOS in Engineering (P.G) had entrusted a Committee Consisting of

- (a) K.R.Chandrasekharan Pillai, Professor, CSE Department, N.S.S College of Engineering, Palakkad.
- (b) Dr. R.Vijayakumar, CSE Department, N.S.S College of Engineering, Palakkad.
- (c) T.Ambika Devi Amma, CSE Department, Assistant Professor, N.S.S College of Engineering, Palakkad.
- (d) Hellen.K.J CSE Department, Government Engineering College, Thrissur.

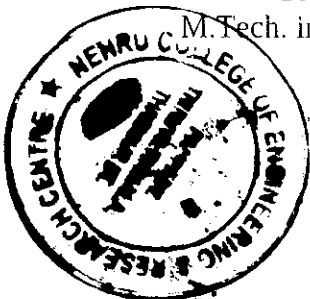

For the preparation of syllabi for M.Tech in Computer Science and Engineering to implement for the year 2010-2011 admission and the committee submitted the fair copies of the syllabus of M.Tech in Computer Science & Engineering.

As per the paper read 2nd, the Academic Council at its meeting held on 03.07.2010 has approved the minutes of the meeting of the B.O.S Engineering (P.G) held on 10.12.2009 and 28.01.2010 for implementing the syllabi of M.Tech in Computer Science and Engineering from 2010-2011 admission onwards.

As per the paper read 3rd, the Syndicate considered the question of approving the syllabus for M.Tech in Computer Science, 2009 batch and resolved that the syllabus for M.Tech Computer Science approved by the Academic Council meeting held on 03.07.2010 be made applicable to 2009 batch also.

Considering the matter, Vice Chancellor has ordered on 31.07.2010 to implement this resolution of the syndicate and also ordered to report the matter to Academic Council.

Orders are therefore issued implementing the appended scheme & syllabus of M.Tech. in Computer Science & Engineering from 2009 admission onwards.

PROJECTS
COMPLETED M.TECH

FUZZY CONTROLLER FOR DUEL FUEL ENGINE (DIESEL AND LPG)

- Converted a diesel IC engine to a duel fuel engine which can use both diesel and LPG as its power source.
- Reduces NO_x, HC, CO etc emissions and improves fuel efficiency.
- Exhaust Gas Recirculation (EGR) system will reduce the NO_x content in the exhaust gas.
- Both EGR and LPG are controlled by a fuzzy control system to improve the performance of the dual fuel engine.

HEADLAMP ORIENTATION USING HALL EFFECT SENSOR

- An apparatus for adjusting a direction of a light axis of a swingable auxiliary headlight of a vehicle.
- Control system rotates the right and left headlights independently and keeps the beam as parallel to the road.
- The Hall Effect sensor mounted on wheels are used for measuring the load in the vehicle.

TOOL CONDITION MONITORING OF INDUSTRIAL DRIVES USING CURRENT MEASUREMENT

- Tool breakage, tool wear, and workpiece deflection are strongly related to cutting force.
- The force is measured using a Hall Effect current sensor installed on the milling machine induction motor.
- Signal is acquired and processed in LabVIEW and an alert message is sent

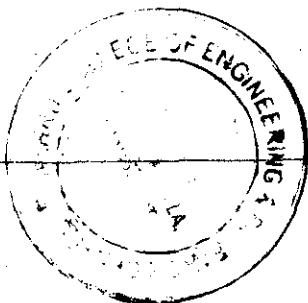

FAST DATA ACQUISITION FOR INTERNAL COMBUSTION ENGINE

- Records cylinder pressure, manifold pressure and crank angle encoder values etc. from engine.
- Pressure vs angle, pressure vs volume, heat release curve etc. is plotted from the data after processing in LabVIEW.

PROJECTS
COMPLETED B.TECH

DEVELOPED MEMS BASED ROBOTIC ARM FOR PHYSICALLY CHALLENGED.

- An idea to improvise the existing prosthesis and a helping hand to physically handicapped people.
- MEMS sensors are attached to a functioning body part of the subject.
- The subject himself can control an artificial robotic limb by mere gestures.

ACADEMIC PROJECT

MAIN PROJECT TITLE: "DESIGN AND FABRICATION OF STIRLING ENGINE"

The project deals with the design and fabrication of Stirling engine which utilizes only heat as the source for its working. The Stirling engine is an efficient engine which require outside heat to operate. It is similar to steam engines i.e. the stirling engine is an external combustion engine. The Stirling engine is noted for its quite operation and the ease with which it can use almost any heat source. This capability with alternative and renewable energy sources has become increasingly significant as the price of conventional fuels rises.

MINI PROJECT TITLE: "ENERGY EFFICIENCY IN PUMPING SYSTEMS"

This project is a step by step study for improving energy efficiency in pumps and pumping systems for industrial, agricultural and house hold purpose. It provides best practice information on pumps and pumping systems and outlines where opportunities for improving system performance and efficiency will lead to benefit to the society. By doing this project, our aim is to determine the changes that can be made to improve the performance of pumping systems reduce operating costs and improve environmental outcomes.

ACADEMIC SEMINAR

TOPIC: AIR CAR

This seminar deals with the working and advantages of the air car .The air car is powered by air engine, specifically tailored for the small vehicles which does not pollute like the twentieth century vehicles and does not take a life time to pay off.

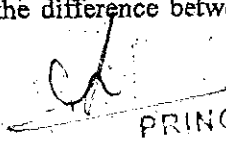

TOPIC: A STUDY OF MICRO-HOLE MACHINING OF POLYCRYSTALLINE DIAMOND BY MICRO-ELECTRICAL DISCHARGE MACHINING

This seminar deals with the paper published by D. Wang et al, on the the micro hole machining of Poly Crystalline diamond by micro EDM with varying polarity and also explains about impact of parameters on the machining performance.

TOPIC: MEASURING SUPPLY CHAIN COST

This seminar is related to a paper published by Annelie I. Pettersson et al. and is concerned with SCC and how measurements of SCC are and can be used in industry. This paper describes a suggested model for measuring SCC. The focus is also on identifying the difference between SCC based on estimated standard cost compared to actual cost.

TRAININGS UNDERGONE

IN-PLANT TRAINING:

"Industrial Familiarization Training" at Hindustan Machine Tools Limited, Kalamassery.

An industrial familiarization and training program for a time period of one week has been attended to gain knowledge about the functioning of various departments in an Industry, the production process and the Mechanical elements involved in the production

INDUSTRIAL TRAINING:

TOPIC: STUDY OF FORGING DEFECTS IN INTEGRAL AXLE ARMS

The industrial training titled "Study of Forging Defects in Integral Axle Arm" was is done at SIFL, Athani for the award of the degree of Master of Technology in Mechanical Engineering with specialization in Production and Industrial Engineering under Mahatma Gandhi University, Kottayam. The detail regarding organizational study was conducted during the training. The functions and activities of the different departments of the company are studied. Forging defect analysis of Integral Axle Arms used in military tanks were studied and methods for reducing the rejection were suggested.

SEMINAR ATTENDED

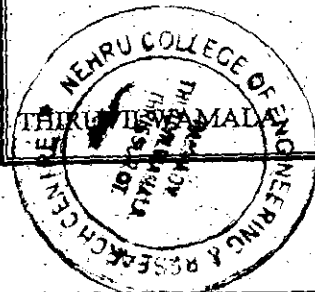

- UGC sponsored National Workshop on "Fundamentals of Powder Diffraction and Microstructural Characterization of Materials" held at Mar Athanasius college of engineering, Kothamangalam.
- "Bosch Diesel fuel injection Systems" conducted by Bosch Training Centre at Nehru College of Engineering and Research Centre, Pampady.

THESIS

The topic of the thesis work carried out is "Mechanical behavior of Ti-6Al-4V alloy" and is carried out at VSSC, Trivandrum. In this work the strain hardening behavior of Ti-6Al-4V alloys sheets using tensile testing at room temperature is studied for various heat treatment conditions and for various strain rates. The changes in the microstructure of the sheets during the heat treatment and after the tensile testing are studied using optical microscopy and fractographic study using SEM

PROJECTS DONE: – As a part of B.tech

MAIN PROJECT:

- DESIGN, FABRICATION AND EXPERIMENTATION OF MIXED MODE SOLAR CROP DRYER:

For processing the agricultural products like copra, tapioca, banana chips etc. requires drying application. Now a days the practice is direct drying under sun. In this project work we aim to increase the efficiency of crop drying using a solar dryer which utilize the green house effect.

The crop dryer is capable of providing hot air of temperature difference (35°C-90°C) on a moderate sunny day. It is therefore a suitable dryer for agricultural drying applications.

MINI PROJECT:

- COOLING LOAD CALCULATION AND TONNAGE FOR CIVIL ENGINEERING DEPARTMENT BLOCK:

EXPERIENCE:

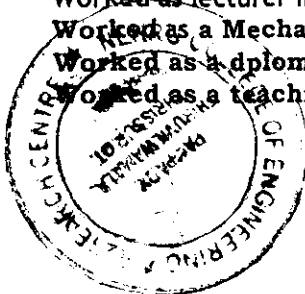

Working as Assistant Professor in Nehru college of engineering and research centre, pampady from 06/06/2016 and still continuing.

Worked as lecturer in Malabar poly technic campus, cherppulasery for 1 year

Worked as a Mechanical Faculty in Academy of marine technology, Palakkad

PROJECT

• BE-Mechanical Engineering

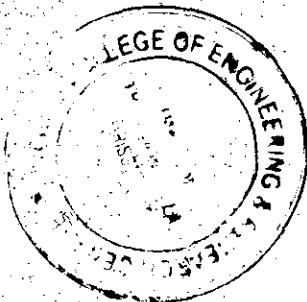

Mini power forger (Final year project)

A machine to reduce the effort of labours in small scale industries by easy hammering and forging technique. The aim of project is to get the constant force at same place repeatedly in forging operations. Also to replace the labour work up to 80% in such operations and to improve mechanical properties of metal like directional properties, tensile, toughness etc.

• ME-Mechatronics

Modbus based industrial automation using RS485 standard

Modbus is a serial communications protocol developed by Modicon, for communicating with industrial electronic devices such as PLC,PAC or DCS over twisted pair wires. Modbus is a simple and rugged protocol that has become the de-facto standard of the process control and automation industry. It allows for communication between many devices (approximately 247) connected on the same network, i.e. a system that measures physical phenomenon such as temperature, current, voltage and humidity communicating the results to a Master (computer).

Academic Projects Undergone

1. "Robust Segmentation of Road Traffic Signs Using Adaptive Thresholding Techniques"

Description: The system proposed a robust traffic sign segmentation system using adaptive thresholds for relative similarity with k nearest connectivity especially k=4. The system was developed successfully under developed under various illumination conditions, such as day time, night time, and evening time. The final goal is to develop a robust traffic road sign recognition system and to transmit only the necessary information to the driver by the voice or vibration that may not disturbed his driving. The system is intend to consider the drivers gazing using eye camera when the driver does not pay attention to the road environment ,the system will alert driver in time.

2. "Medical Imaging System" in Interactive Data Language (IDL)

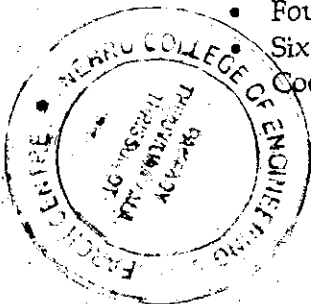

Description: It is designed in IDL (interactive Data Language).The system can easily identify the cancer affected organs. For this we take the x-ray -image of the affected parts and compared it with the specify threshold value.

3. "Deposit Management System" in Visual Basic & Oracle 8i Server 2000

Description: The system was developed in Visual Basic Platform and Oracle Database (8i) as Backend. This project deals with different transactions and it will make the amount calculation and withdrawal of money back policies faster and accurate. All the deposit schemes can be computerized, this would help to reduce the paper works and manual computing can be eliminated.

Sir/Madam,

The Dept. of Labour of the Govt. of Kerala has required this Institute to undertake a study On Developing a Legal Framework for the Care and Support of Women Out-migrants from Kerala. Accordingly, we have constituted a study group consisting of the following research scholars:

1. Prof. TSN Pillai (Team leader)
2. Sri. Manoj Kadakampally (Research Associate)
3. Sri. S. Krishnamoorthy (Research Associate)
4. Smt. S. Bindu (Research Associate)

The team has already started the project work. They are in the field to collect relevant data. The bearer of this letter is Sri.S.Krishnamoorthy. This is to request you to provide him with all the facts and figures and copies of documents related to the subject of the study. The information you give will be used only for the purpose of the study and will be kept confidential. The findings of the study will form the basis for developing an appropriate policy/legal framework for protecting women from Kerala who are presently working in other states in India and abroad.

Looking for your whole-hearted cooperation and support for the study and thanking you in anticipation,

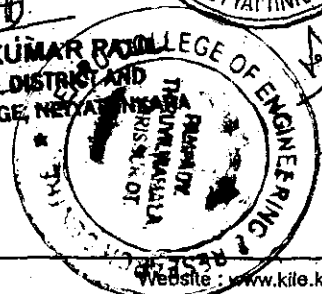

Yours faithfully,
