## AWARENESS SESSION ON BRIDGING THE INDUSTRIAL GAP

25th JULY

TIME : 10am - 12pm

Seminar Hall, Aryabhata NCERC

# EVENT SUMMARY

The program began with a warm welcome, followed by an introduction to the theme – bridging the gap between academic learning and industrial expectations. Arjun and his team worked closely with Romid Solutions, the guest organization, to make the session both informative and practical. The speakers shed light on the crucial skills required in the professional world, the latest industrial trends, and how students can align their academic journey with real-world applications.

The session was conducted in an interactive format, allowing students to ask questions, clarify their doubts, and share their opinions. Team members ensured that the discussions remained lively and productive, creating an environment of active learning. Participants appreciated the approachable and engaging nature of the speakers, who encouraged students to develop not only technical skills but also essential soft skills such as communication, adaptability, and teamwork.

A key highlight of the event was the positive feedback from the participants, many of whom expressed that the session helped them gain clarity about industry expectations and boosted their confidence to step into professional roles. The coordination team, led by Arjun, ensured that every detail – from logistics to audience engagement – was handled efficiently, making the event a well-organized and impactful one.

# THE FINAL NOTE

The Awareness Session on “Bridging the Industrial Gap” successfully achieved its goal of connecting academic learning with real-world industrial practices. The session provided students with valuable insights into industry expectations, essential skill sets, and professional growth. The dedicated efforts of Arjun and his team, along with the collaboration of Romid Solutions, ensured that the event was both informative and engaging. The program concluded with a motivating address by Dr. Mridhula L, Head of the Department of Electronics and Communication Engineering, who appreciated the team’s initiative and encouraged students to continue working toward becoming industry-ready professionals. Overall, the session stood as a meaningful step toward bridging the gap between academia and industry.
